**How to Handle Predators in the Online Meeting:**

We had some of the newer members exchange phone numbers using the chat at one of our meetings; and one of them is a minor. Member P(predator) texted Member M(minor) offering him meth and sex. The minor did the right thing and replied to P with “No I’m a minor and Do Not contact me again or I will call the police.” and let a couple of the trusted servants of this group know.

We discussed the following:

- It is in the group’s best interest to not protect the anonymity of who Member P is so that other secretaries can be aware and take proper precautions.
- P has been spoken to by one of our trusted servants the same day/ or day after this happened and was told that his behavior was not acceptable. We are letting all secretaries in the group know and if there is inappropriate behavior that as secretary they can remove him from the meeting.

- It also might be helpful for secretaries to ask members who have worked all 12 steps or who have a year or more to identify themselves or raise their hands so that newer people will know who to reach out to.
